

ALUMINUM BRIGHTENERS

QUICKSILVER

Quicksilver is our premium aluminum brightener containing our most aggressive blend of acids to effectively brighten the look of the aluminum while leaving a silver, satin finish. Quicksilver is highly concentrated and performs in extreme conditions. Contains Hydrofluoric Acid.

FLEET WASH PRODUCTS (BRUSHING)

HYDRO MAGIC

Hydro Magic is a traditional vehicle wash soap that is safe for all surfaces & to the touch. Hydro Magic has a vibrant pink color and pleasant fragrance with outstanding stability in the presence of greasy oils and hard water conditions. Hydro Magic provides viscosity for lubrication of brushes and great for use in foaming systems. Hydro Magic also re-wets if allowed to dry on the surface. Ships non-hazardous.

E-Z CLEAN

E-Z Clean is a foaming soap formula that is more easily applied through automatic vehicle wash equipment and proportioning systems. E-Z Clean is safe for all vehicle surfaces. Ships non-hazardous.

SPECIALTY FLEET PRODUCTS

BUG SOAKER THIN

Bug Soaker Thin softens bugs and breaks down caked-on road film as an aggressive pretreatment & degreaser. Bug Soaker Thin is an aggressive formula that performs in extreme conditions and maintains performance when mixed to more economic dilutions.

BUG SOAKER SOP

Bug Soaker SOP is a re-designed formula to be safe on polished aluminum surfaces. Bug Soaker SOP has the same characteristics as our original Bug Soaker Thin formula, but is typically effective only at stronger dilutions.

HYDRO-SHEEN

Hydro-Sheen is a liquid spray wax that is applied as a final step to protect paint and enhance the glossy appearance. Hydro-Sheen can also be used as a rinsing aid when mixed into high pH soaps.

FOAM ADD

Foam Add is a pH neutral liquid that can be mixed into high pH or low pH detergents to increase dwell time & enhance the clinging effect of soaps.

WASH TUNNEL WALL CLEANER

Wash Tunnel Wall Cleaner is an aggressive blend of acids that cleans soap film, water scale, and surface rust stains. Wash Tunnel Wall Cleaner is safe on glass surfaces and does NOT contain Hydrofluoric Acid.

SALT DEFENDER

Salt Defender is specifically formulated to neutralize the effects of salt and chlorides over regular vehicle wash soaps to prevent corrosion.

ASPHALT XL-71

Asphalt XL-71 is a solvent degreaser that works quickly and effectively to dissolve asphalt, tar, adhesives, and heavy greases. Asphalt XL-71 is a safer cost-controlled alternative to chlorinated solvents, d-limonene, and diesel.

FLEET QUAT

Fleet Quat sanitizer is designed specifically for biosecurity systems, manufacturing and institutions where disinfection, sanitizing, and deodorization are of prime importance. Fleet Quat is effective against avian influenza and other pathogens. **FLEET QUAT IS EPA REGISTERED IN SELECT STATES & SUBJECT FOR APPROVAL PRIOR TO SALE!**

DEGREASERS & FLOOR SOAPS

HC-36

HC-36 is an outstanding general purpose cleaner and degreaser. HC-36 quickly penetrates and suspends greases and oils from their surfaces for easy removal. HC-36 is a non-caustic butyl degreaser and is safe for vehicle surfaces, polished aluminum fleets, glass, and floor scrubbers. Ships non-hazardous.

HCS-120

HCS-120 is a near-neutral pH general purpose cleaner that is more environmentally friendly and non-hazardous for safer removal of oils & greases. HCS-120 is formulated without phosphates, caustic hydroxides, acids, phenols, petroleum solvents, or butyl. Ships non-hazardous.

HCS-400

HCS-400 is a versatile foaming caustic cleaner and degreaser that will penetrate thick oils & greases for effective removal from vehicles, engines, floors, concrete, and kitchen exhaust systems. HCS-400 is also an aggressive #2 truck wash soap paired with your choice of HCS #1 presoaks or single-step detergent for non-polished aluminum vehicles.

#611

#611 is a lower foaming degreaser with butyl for easy rinsing, quick drying, and more effective water recovery/reclamation applications. Excellent for factory cleaning, oils, greases, tread marks, engines, shop floors, meat cutting areas, equipment, and food hauling trailers. For use with floor scrubbing equipment, proportioning system, pressure washer injector, pump sprayer, or direct application pump.

PREP-SOLV

Prep-Solv is a higher foaming general purpose cleaner and degreaser that contains no caustics, acids, butyl, or solvents. Prep-Solv uses a non-hazardous blend of surfactants to hold molecules in suspension for effective removal of oils, greases, and other soils. Prep-Solv can be used on non-glass surfaces and is safe to the touch. Ships Non-Hazardous.

POWER-SOLVE

Power-Solve is a lower foaming general purpose cleaner and degreaser that contains no caustics, acids, butyl, or solvents. Power-Solve is an excellent black streak remover and uses a non-hazardous blend of surfactants to hold molecules in suspension for effective removal of oils, greases, & other soils. Power-Solve rinses easily from glass surfaces and is safe to the touch. Ships Non-Hazardous.

CONCRETE & CEMENT TRUCK CLEANER

CTC

CTC (Cement Truck Cleaner) is an aggressive acid cleaner with built-in corrosion inhibitors which protects vehicle surfaces and wiring. This product is highly effective in removing concrete slurry, cement splatter, lime, fly ash, and masonry dust. Use CTC to wash ready-mix trucks, pneumatic tankers, concrete handling equipment, forms, and tools.

CTC w/ RINSE AID

CTC w/ Rinse Aid offers the same cleaning benefits as our original CTC formula and also provides added protection against corrosion & redeposit of sediments. CTC w/ Rinse Aid leaves a protective finish on which assists with regular cleaning and repeat washes.
